

# FPP FoodPro Plus **NEW!**

## Infrared Thermometer with Flip Down Probe

Comark Food Code Compliant Infrared Thermometer

### FPP FoodPro Plus

Infrared thermometer with flip down Pt100 sensor probe and integral countdown timer

- Infrared range: -30° to +525°F
- Probe range: -40° to +390°F
- Accuracy:  $\pm 2^\circ\text{F}$
- HACCP lights and timer
- 9V alkaline battery
- Belt holster included

\* FDA 2009 Food Code 4-302.12  
Food Temperature Measuring Devices.  
Utensils, Temperature Measuring Devices and Testing  
Devices

When determining the temperature of thin foods, those having a thickness less than 13mm (1/2 inch), it is particularly important to use a temperature sensing probe designed for that purpose. Bimetal, bayonet style thermometers are not suitable for accurately measuring the temperature of thin foods such as hamburger patties because of the large diameter of the probe and the inability to accurately sense the temperature at the tip of the probe. **However, temperature measurements in thin foods can be accurately determined using a small diameter probe 1.5mm (0.059 inch) or less.**
