

CALIBRATION

Fast - Efficient - Quality - Competitive Pricing - Single Source

[Request A Quote](#)

techniCAL provides superior after sales support by providing traceable and ISO17025 calibration services. Utilizing the technical expertise of a partner 3rd party calibration network and OEM's; techniCAL can provide a sole source solution to coordinate all of your instrument requirements.

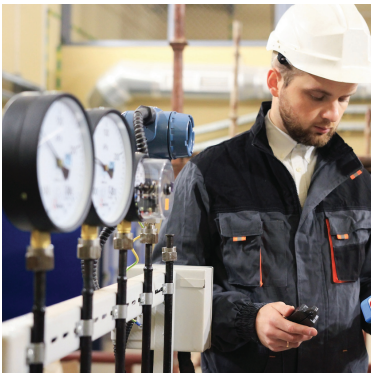

We can calibrate and repair:

- **Electrical:** DMM's, Clamp Meters, Oscilloscopes, Generators, Optical/RF Instruments
- **Process:** Pressure Gauges, Thermometers, Panel Meters, Transmitters, Data Loggers
- **Dimensional:** Torque Wrenches, Force Gauges, Micrometers, Calipers, Weights / Scales
- **Environmental:** Light Meters, Sound Level Meters, Hygrometers, Combustion Analyzers

ON-SITE

Eliminate Downtime, Logistics and Shipping Costs - Let us come to you!

If you cannot afford downtime to send your instruments out for calibration or need them calibrated in process; Then consider our team coming to you. Our on-site services offers a cost effective and efficient method of managing and executing calibration of your instruments.

Benefits include:

- **Logistically easy to manage:** Consolidate and schedule at your convenience
- **Eliminate shipping charges to multiple locations:** Save time and money
- **Minimize downtime:** Be more productive
- **Single Source:** Volume discounts provided

CALIBRATION TECHNICIAN

If you are an employer seeking experienced people... look no further! We prequalify candidates to meet your specific requirements.

If you are a technician or metrologist seeking employment... look no further!

Remember, there is no cost to a candidate seeking employment. A placement specialist will conduct a Career Profile with the Candidate. This information will further enhance our ability to match the correct Candidate with the requirements of the Employer.

PRECISION TRAINING

Computer-based training for Precision Measurement, Calibration and Metrology.

- Over 28 Courses
- 200+ Training Hours
- 1000+ Topics

Online course delivery consisting of tutorials, practice, assessments, record keeping, and certificates of completion.

Top metrology experts deliver in-depth training on-site at your location, on your schedule.

CUSTOM TEST BENCHES

techniCAL can provide a custom test bench to your specification.

We can provide you with wide choice of test equipment or you can supply existing test equipment for us to integrate into a test bench.

Standard consoles fit most instrument work tables or techniCAL can furnish complete test benches to handle all of your calibration needs.
